How will the child be supervised? Teachers will be in the room with children as they rest.
--

All applicable regulations must be followed, including, but not limited to, those listed below. Contact your regulator with any questions.

- In a child day care center, children may not sleep or nap in car seats, baby swings, strollers, infant seats, or bouncy seats, unless otherwise prescribed by a health care provider. Should a child fall asleep in one of these devices, they must be moved to an approved sleeping surface.
- Sleeping arrangements for infants through 12 months of age require that the infant be placed flat on their back to sleep, unless medical information from the child’s health care provider is presented to the program by the parent that shows that arrangement is inappropriate for that child.
- Cribs, bassinets, and other sleeping areas for infants through 12 months of age must include an appropriately sized fitted sheet and must not have bumper pads, toys, stuffed animals, blankets, pillows, wedges, or infant positioners. Wedges or infant positioners will be permitted with medical documentation from the child’s health care provider.
- The resting/napping places must be located in approved day care space; be located in safe areas of the program; be located in a draft-free area; be where children will not be stepped on; be in a location where safe egress is not blocked; allow a person to move freely and safely within the napping area in order to check on or meet the needs of children; and be at least two feet apart from each other.
- Children unable to sleep during nap time shall not be confined to a sleeping surface (cot, crib, etc.) but instead must be offered a supervised place for quiet play.
- A copy of this agreement must be kept on file at the program and accessible for review.
